PROJECTS

EVENTS

Designed and developed web application to allow users see all the event's other users posted. Events is grouped by the state your living in and events outside your state. Users can add new events and have the ability to join other users.

SHOE BLOG

Developed web application about Men's Shoes enabling users to see the latest articles on fashion trends and fashion tips. Views can post comments at the bottom of the page.

SECRETS

Created website where the user can submit a secret anonymously. Other users can "Like" a secret that they enjoy. Users have the ability to remove a "Like" from a particular secret and delete their own secrets from the database.
